Cedar Accounting Expense and Closing Policy

Expense Claims

Employees submit expense claims within 30 days of the expense date.

Every claim above 50 dollars needs an original receipt.

Claims are approved by the line manager and then checked by Accounts Payable.

Month-End Closing

The monthly close is completed within 5 working days after month end.

All bank accounts are reconciled every month before the close.

Accruals are recorded for services received but not yet invoiced.

Our financial statements are prepared under IFRS.

Invoices and Payments

Supplier invoices are paid within 45 days unless the contract says otherwise.

A payment above 10000 dollars needs approval from the finance director.

Duplicate invoices are prevented by checking the supplier and invoice number in the accounting system.

New suppliers are approved by the procurement team before the first invoice is paid.

Fixed Assets and Records

Items costing more than 1000 dollars are recorded as fixed assets instead of expenses.

Office equipment is depreciated on a straight-line basis over 5 years.

Laptops and phones are depreciated over 3 years.

Accounting records and receipts are kept for 10 years.

Petty cash is counted every Friday and may never exceed 300 dollars.

Journal entries above 5000 dollars are reviewed by a second accountant before posting.
